

Embossing Film

Product Data Sheet

Material Specifications

Standard Width:	24" (609.6mm)
Standard Length:	1,000' (304.8m), 2,000' (609.6m) Custom lengths available
Standard Thickness:	50 gauge (12 micron)

Product Description and Key Features

Embossing film is a polyester material that has a thickness of 50 gauge (½ mil or 12 micron), which is perfect for providing a thin cover over an engraved die. This cover helps insulate the engraved die and prevents sheets from sticking to the die while being embossed.

Detail: Can be cut to size

Storage

Dry, climate-controlled conditions

Recommended For

Embossing and debossing jobs

***Disclaimer:** Before using this product, you must evaluate it and determine if it is suitable for your application. Storage conditions, metal type, temperature, size/weight, and cleanliness will affect bonding.
